EDUCATION

Carleton University

Bachelor of Computer Science Honours, Minor in Statistics

CGPA: 9.35/12

Ottawa, ON

Sept. 2022 – 2026

- **Relevant Courses:** Data Structures and Algorithms, Object-Oriented Programming, Databases, Web Development, Software Engineering, Systems Programming

PROJECTS

Stock Data Analysis Tool | *Python, Flask, HTML/CSS, APIs*

August 2024

- Designed and programmed a stock data analysis tool that used APIs to fetch real time stock data, allowing users to analyze stocks.
- Set up a Python Flask server to handle web framework, which made use of HTML and CSS to create a user-friendly experience.
- Applied statistical models and machine learning to predict stock prices based on historical data, utilizing Python modules to implement linear regression algorithms, giving users the ability to make decisions based on predicted values.

Game Simulation | *C++*

April 2024

- Developed a program using object-oriented principles in C++ that follows two heroes attempting to escape a pit filled with enemies.
- Designed C++ classes to encapsulate character traits and functionality, while using inheritance and polymorphism to create various behaviours and states.
- Implemented data structure, including Linked lists and Array lists to manage and track participants in the game.

Music Streaming Web Application | *JavaScript, Node.js, HTML/CSS, SQLite*

December 2024

- Developed a full-stack web application allowing users to create accounts, log in, and manage personalized playlists stored in a SQLite database.
- Implemented a search and playback feature, enabling users to query songs by title, artist, album, or genre, and play songs with album covers and metadata displayed.
- Designed a responsive user interface with JavaScript, HTML, and CSS, providing a seamless and interactive user experience.

WORK EXPERIENCE

Retail Associate

August 2021 – Present

DSW Designer Shoe Warehouse

Ottawa, ON

- Communicated effectively with customers to understand their needs, ensuring they found the correct shoe sizes and products.
- Collaborated with team members to manage often large shipments of new stock, ensuring that all new products are placed on the sales floor for customers.
- Trained new employees and new management within the stock team, teaching them standard work practices and how to manage inventory.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, JavaScript, R, HTML/CSS

Frameworks: Node.js, Express.js, Flask, Pygame, RESTful APIs

Developer Tools: SQL, SQLite, Git, GitHub, Qt, Visual Studio Code, IntelliJ IDEA, Linux, SPSS, SAS

AWARDS & ACHIEVEMENTS

OBEA International Business Contest Third Place: Awarded to the third place winner of the OBEA International Business Contest

Carleton University Entrance Scholarship: Awarded to students enrolling into the university with an average of 90%
